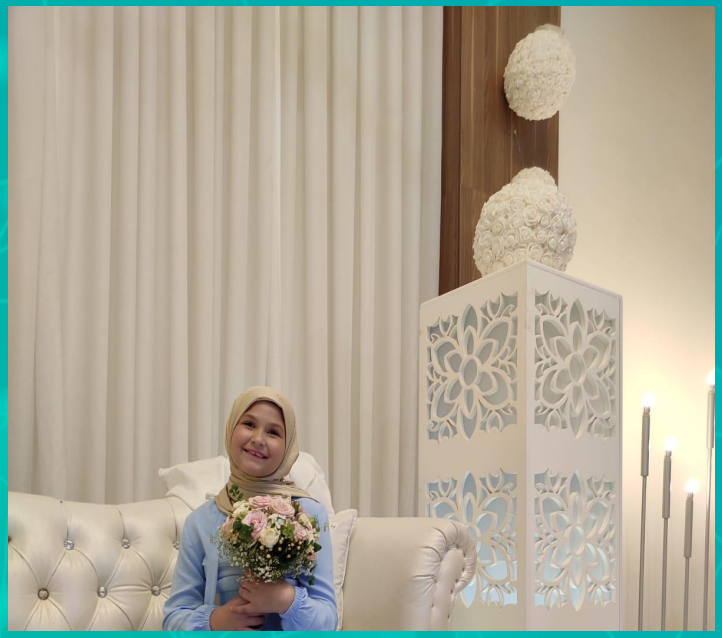
Acknowledgements

- A small vote of thanks for all who have helped me in this journey of App Development : my parents, Mr Ken, Clevered, mentors,Group Members, Friends, and etc.

About Me..

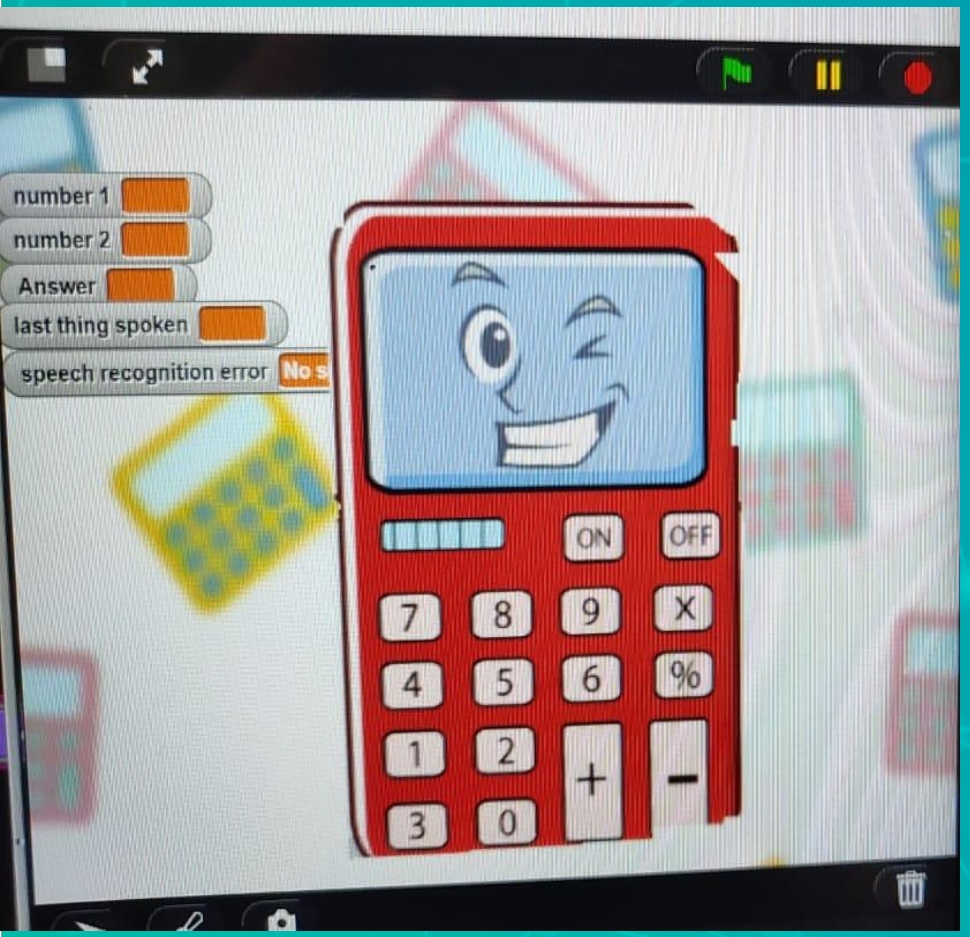


- I am sabine kassab a grade five student.I am level 6 in coding .And i am 10 years old.

About My Internship with Clevered..

- My internship experience with clevered was excellent i learnt a lot and it was a new experience for me.
- By badges earned are:Rockstar for team work,rockstar for timely submission of home assignment.
-

About App..



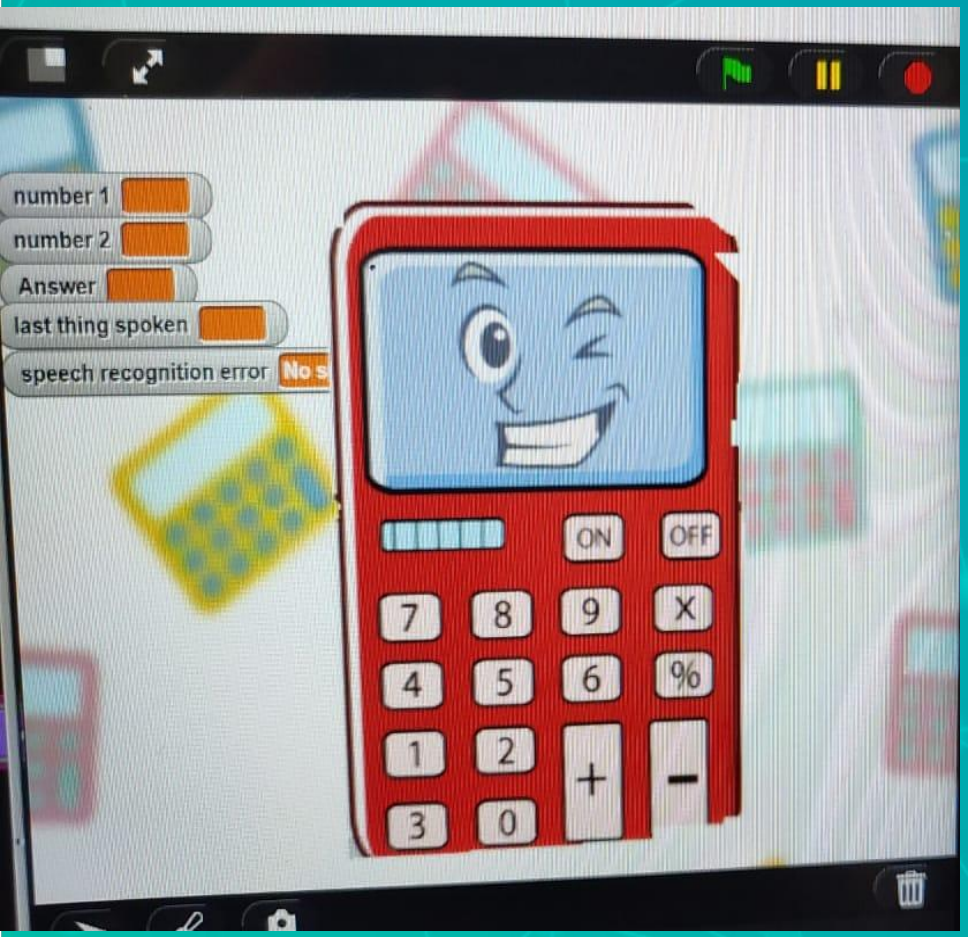
- My app is a calculator it calculates any digits in the world.
-

How do I use the App?

- First, the calculator will introduce its self. then, it will ask you whats the first number you want. You will have to speak the number you want.then, it will ask you whats the second number you want. also, you will have to speak the second number you want. After that, you will have to press on the first letter of any operation you want to use that operation. At the end, it will speak the answer out loud.

Option Name

(This will be repeated for each option of the App)



- First you will have to speak out the numbers you want then the calculator will listen. After that you will have to pick an operation by pressing the first letter of each operation. I have no special considerations, no dependencies and, no risks while using the option.

Contact Person

- Please reach out to Sabine kassab at sabinehkassab@gmail.com for any questions/ concerns/ suggestions on the App

Thank you!
